

# PARTICIPANTS NEEDED!

## About us:

Our names are Matilda and Katie. We are two undergraduates at the University of Edinburgh. For our thesis in Psychology we are looking to **explore the experience of living with an acknowledged facial disfigurement**

## CAN YOU HELP US?

We are looking for **adult** participants who:

- Have an acquired facial disfigurement**
- Between the ages of 20-70**
- Based in Scotland, preferably Edinburgh (we can provide £10 towards transport)**

The study will consist of an interview (no longer than 1 hour), which will take place in the University of Edinburgh's Psychology Department (7 George Square, Edinburgh, EH8 9JZ). We will provide refreshments!

## Desired outcome of this study:

we are hoping to discover themes that will assist an understanding of the various stages of living with a facial disfigurement, and the specific challenges and changes that require social support. *All interviews will be entirely anonymous.*
